

SERTAIN® S4401

INTENSIVE CARE AND TRAUMA CHAIR

caremed
HEALTHCARE EQUIPMENT

Description

"The Sertain® chair is certainly more functional than any other chair I have used."

Snr Respiratory Physio,
Queens Hospital
Romford

The S4401 is an advanced care chair, designed in conjunction with Critical Care, Trauma and Rehab Professionals, as a Platform for Care and Early Mobility.

- ✓ Easily, quickly and safely mobilise critical care and trauma patients
- ✓ Eliminate hoist transfers
- ✓ Enable early rehab with the Sertain® Platform for Care
- ✓ Establish a shorter length of stay on ITU

Lay-flat Support Bar

"The Sertain® is the safest method of transfer for patients with an endotracheal tube in situ, or those patients who require mechanical ventilation."

Neuro-specialist Physio, OUH

"I suggested what would work for us, you listened and went the extra mile to deliver exactly what I was looking for, a massive thank you."

Ward Manager, Day Case Unit, Manchester

"The Sertain® helps us get a greater variety of critical care patients out of bed, with less resource ultimately, this leads to shorter stay on ITU."

Critical Care Physio, London
